

Jiraplugins

We develop free and commercial plugins for Atlassian JIRA:

- ictime - comprehensive time tracking solution for JIRA. Flexible reporting, billing support, project teams and price lists, user timesheets, activity types, rounding rules, moving work logs, logging work for others and much more: [Website](#) or [ictime \(Atlassian Marketplace\)](#)
- icbiz - API to connect JIRA, ictime and an accounting/ERP system: [icbiz \(Atlassian Marketplace\)](#)
- icfilters - icfilters lets you access all your issue filters within seconds by adding a filter search with autocomplete to your JIRA navigation bar: [icfilters \(Atlassian Marketplace\)](#)
- icnavigator - Add individual styles to issues in the JIRA Issue Navigator depending on issue status, priority and type. Display due date with different styles if date is undue, today or if issue is overdue: [icnavigator \(Atlassian Marketplace\)](#)

Find more details on [Atlassian Marketplace](#).

- Get support for our JIRA plugins (see below)
- [EULA](#) for our JIRA plugins
- [Privacy Policy](#) for our JIRA plugins

Get support for Atlassian Plugins

ictime

File an request using our issue tracker at <http://interconcpct.atlassian.net/browse/ICTIME>

icbiz

File an request using our issue tracker at <http://interconcpct.atlassian.net/browse/ICBIZ>

In addition you are invited to contact us by mail.
Please drop us a mail to <mailto:jiraplugins@smadoa.de>

Using the trackers is the preferred method to ask for support. We will always ask you to use our tracking system to file bugs or feature requests. This way you are able to keep track and see the progress of your ticket. Also it is transparent to others who can easily find out which issues are being worked on already.
